

HERE IT IS . . .

the new **PYE** table model **B18T**

- ★ The first transformerless television set, employing an entirely new design.
- ★ Brighter picture with increased black and white contrast.
- ★ Full standard 9" tube giving a picture approx. 8" x 6"
- ★ Easier to operate than a radio receiver—only two controls normally requiring adjustment.
- ★ Special adjustable noise limiter which reduces interference to an absolute minimum.
- ★ Extremely compact and light in weight. Weight 30lbs. Size 17¼" wide x 12¼" high x 12¾" deep.
- ★ Attractive cabinet simple in design, beautifully finished in walnut.
- ★ Mains voltage. 230-250 Volts A.C. supply, 50 cycles. For mains between 190-220 Volts an auto-transformer can be supplied. Consumption approx. 125 watts.
