**LOUDSPEAKERS**

**GOODMANS**  
**CONCENTRIC DIFFUSER**  
**P.A. LOUDSPEAKER**

A compact Reproducer of high-power handling capacity having non-directional properties. Its unique radial construction gives uniform sound distribution over an extremely wide area.

Size 36" x 18" Power handling capacity 20 Watts A.C. Peak. Speech coil impedance 15 ohms **£15-0-0**  
Finish Brown Enamel (Subject)

**GOODMANS**  
**DUPLEX HORN**  
**P.A. LOUDSPEAKER**

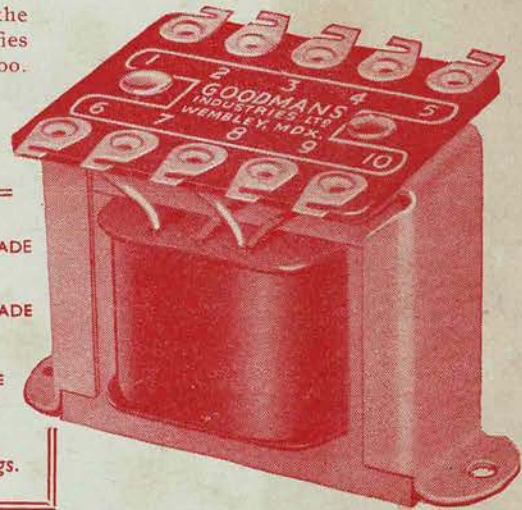

The ideal reproducer where directional properties are desirable. Gives wide angle propagation, equalling two horns set at an angle to each other.

Power handling Capacity, 12 Watts A.C. Peak. Speech coil impedance 15 ohms. Length of horn 2ft. 10" Width 2ft 11". Finish- Battleship Grey. ... .. **£5-17-0**  
(Subject)

These two P.A. Loudspeakers are from a comprehensive range and are being extensively used for A.R.P. installations.

One replacement transformer for almost all commercial receivers. An end to the problem of "What types shall I stock"? ... for the GOODMANS "101" is suitable for practically all valves from 2,000 to 20,000 ohms (including Q.P.P., Class B. and Push-Pull) and for speech Coils from 1 to 16 ohms. Moreover, due to a unique system of series and parallel windings, maximum efficiency is obtained irrespective of tappings. Overleaf is a data chart showing the versatility of the "101", and how it simplifies accurate matching. Simplify your stocks too. Send the reply-paid card to-day.
