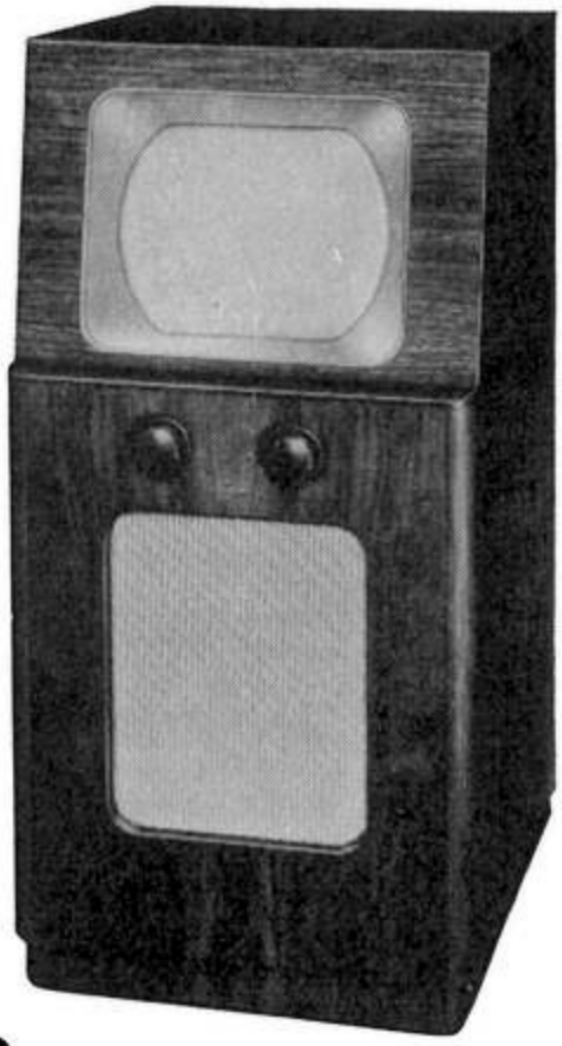
Long range TV that leads from "every point of view"



When you sell a Cossor television set you've made another satisfied customer. In the "Inner Circle" or on the "Outer Fringe" these fine long-range models give the best definition. Clear, steady pictures, even in so-called "weak signal" areas without the use of pre-amplifiers.

CONSOLE MODEL 917 in walnut cabinet is a set you can recommend to give the biggest pictures on a 10-in. tube. **60 gns.** Tax Paid.

TABLE MODEL 916. 49 gns. Tax Paid.

COSSOR *the family favourite*
